Easy-to-Clean

Methods to remove stain easily. → 1.

2.

3.

4.

Take a towel (preferred white color) and make it wet with water, also wet the fabric stain area. Please don't put too much water on the fabric. After 20 seconds, squeeze out the towel and rub the stain in circular motion. It is very important to use the correct way to clean the fabric. Once the stain is removed, allow the fabric to dry naturally. When you try to remove the stains, please don't use too much pressure. Don't allow the stain to dry, then it will be difficult to remove. If the way of cleaning is not correct, it is also difficult to remove all stains.

Below stains can be removed with Easy-to-Clean fabrics.

Edible oil | Ball pen (not alcoholic) | Marker pen | Cola | Red Wine | Milk | Coffee | Tea | Juice | Blood | Soy Sauce | Vinegar | Ketchup | Honey | Chocolate cream | Mustard | Lipstick | Fountain Pens.

Add a mild detergent to lukewarm water. Take a clean colour less cloth, wet the stain until damp with the cleaning solution and gently rub the stained area

Wash care instructions need to be followed for prolonged usage of fabric, otherwise will damage the fabric. Test results were gathered from various samples and therefore represent average indicative values. Discolouration caused by clothing fabrics such as jeans does not represent a material defect. Minor colour deviations & discolouring in context of permissible industrial tolerance standards.
