WHERE THREADS MEET ATTITUDE

GENEVA

GENEVA is not just a fabric — but your room's new favorite personality. it's a design tool. With its subtly clashing warp and weft, GENEVA brings a gentle two-tone vibe that shifts with the light and mood. Add in that bouclé texture — soft, nubbly, totally touchable — and you've got yourself a curtain that's pulling serious weight in the style department. GENEVA is made for spaces that like a little drama and a lot of texture.
